

# **Live Class Addon**

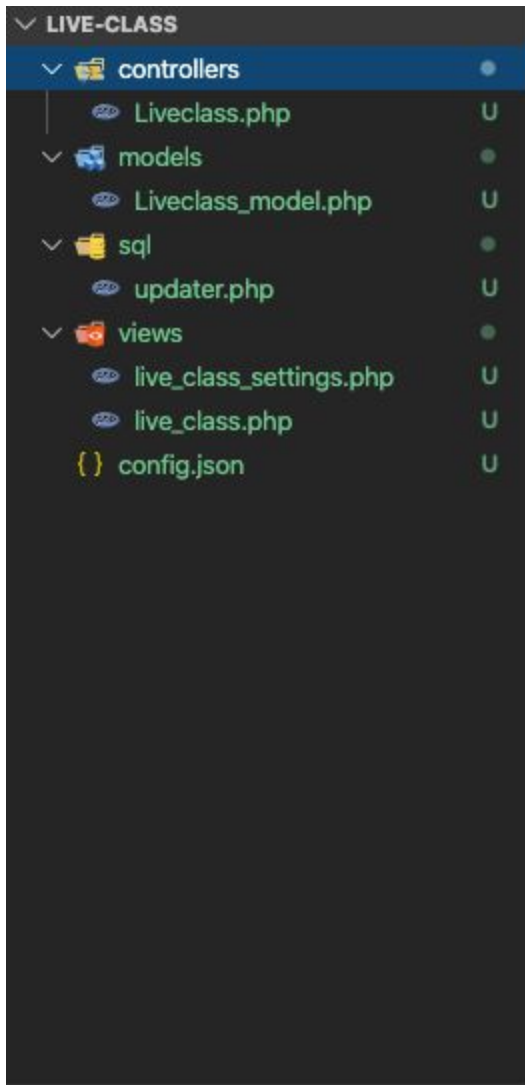

Academy LMS

## **Developer Guide**

Copyright 2020 Creativeitem. All rights reserved.

## Source Code Structure:

We followed standard MVC structure within the powerful Php Codeigniter framework to develop.

### Structure of Live Class Addon:

#### Controllers

- **Liveclass.php** : This is the controller we used for this addon. As the name suggests, it controls all the functions.

#### Models

- **Liveclass\_model.php** : This is the model that has all the database relational code in this addon.

#### SQL

- **updater.php** : If an addon requires modifications on an existing database this file comes to play the role.

#### Views

- **live\_class\_settings.php**
- **live\_class.php**

: The view file we used for this addon.

**Config.json** : This is the skeleton of an addon. It contains the core data. It also describes all the actions made during installation. So do not change anything here.
